# MAKE A PAIR OF BINOCULARS!

## Step 1

Find two empty toilet paper rolls or cut a paper towel roll in half.

## Step 2

Color them with markers or print out your favorite animal print to tape on the rolls.

## Step 3

Next you will want to tape on your paper if you chose that or finish coloring.

## Step 4

Now tape the two rolls together to finish your binoculars.

Look at that! We now have binoculars to go out in the safari to view our favorite animals!
